Submitter Info:

First Name: Taylor

Last Name: Schmidt

Mailing Address: 8550 Touchton Rd. Apt 2228

City: Jacksonville

Country: United States

State or Province: FL

Postal Code: 32216

Comment: This Rule aims to make internet access more available to americans with dissabilities, primarily those with loss of sight or hearing. The Sentiments of the rule are noble, and for the most part I feel it is worded in such a manner as not to force the hand of mobile phone manufacturers, nor those who create internet browsers. Additionally there is a trend in modern technology to either voice activated commands, and text to speech capabilities. I would allow for stronger measures to be implemented with regard to computer based technologies, as computing power and bandwidth are much less of a concern. For cellular phones however, i would delay implementing the rule until the technological landscape becomes slightly more stable.
